catalog number: FL0163

Kod EAN: 5905090428107

**Producer: Sugarcubes**

Preparation for shipping: 1 day

### Price

6,00 EUR

## Product description

### Pink Freestyle Libre decorative tape with hole

Specially created hole gives more ventilation and the possibility of sticking a sticker. We recommend using it to secure the sensor during increased activity (sport), especially in children.

Package 5 pcs.

### Adhesive for the Freestyle Libre sensor with a hole is:

- waterproof and breathable properties,
- good way to make better look
- good for sport activity
- large area of 65 mm in diameter
- **based on high-quality Rocktapes**
- can be used also on injections from an insulin pump

### Directions for use:

- the adhesives are flexible and stretchable (deliberately a bit smaller than the

sensor) because after application they stick to it stably around

- make sure your sensor is clean and dry - preferably wipe it with a disinfectant swab
- peel off the patch carefully, starting in one corner
- to avoid touching the glue, start sticking the patch on the skin from the peeled-off side, slowly peeling off the backing and sticking the patch on at the same time
- after applying, smooth the patch with your finger to make sure that it sticks well

*This product has a decorative function and is not a medical product.*
